THE BOOTCAMP GOA
Electronic music production and performance education camp | season **3**

At The Bootcamp Goa, our mission is to empower the next generation of music producers and DJs with avant- grade skills and tools in music production and performance to excel on the global stage.

The Bootcamp Goa embodies the principle of "Education through Experience", staying at the forefront of evolving trends in music consumption, production, performance, and technology.

The residential program brings together world-class professionals in DJing, music production, traditional and hybrid performance techniques, and much more in the vibrant setting of Goa.

Participants gain hands-on experience with the latest hardware technology while living and learning alongside their mentors.

Private 1:1 mentorships are available on demand, and our Soundlabs provide 24X7 access to a wide array of hardware for practice and experimentation.

Our carefully selected mentors are not only experts in their respective fields but also dedicated educators. With a passion for giving back to the community that shaped them, they volunteer their expertise to nurture up-and- coming talent.

The Bootcamp Goa is tailored for aspiring music producers, DJs, electronic music performers, sound designers, and live visual artists looking to launch or take the next step in their careers.

We are also welcoming working professionals with minimal or no elementary experience in Ableton Live and DJing.

The Bootcamp Goa provides an opportunity to explore the world of hardware and modular synthesis, DAWless and hybrid performance, film scoring, and video content production and performance.

Whether your goal is to launch or enhance your DJing career, upgrade your music production skills, secure releases on world-class labels, understand music business or perform at venues globally, or dig into the world of making your own Max4 live devices, this program is designed to meet your needs.

THE BOOTCAMP GOA

Electronic music production and performance education camp

season **3**

IS IT FOR YOU ?

IF YOU

Want to excel skills in music production and performance.

Learn from and network with world-class professionals from music industry.

Wish to step up your DJing career by adding in extra flavour of live elements.

Desire to get your releases on world-class labels.

Aspire to become a live visual artist/visual creator/VJ.

Wish to learn how to create your own Max4live devices.

Want to make music/sounds for cinema/TV/adverts and understand the business

Wish to improve your music making skills on Ableton and Logic Pro or using hardware.

Wish to learn hardware drum machines/groove boxes/modular synths & synthesizers.

Aspire to become an electronic music "Live" artist.

YES ?

Then this program is meant for you.
